

ADVISORY BOARDS GENERATE VALUE.

ONLY IF THE INSIGHTS ARE CAPTURED AND ACTIVATED.

Medical Affairs teams often struggle with:

1

**Limited
internal resources**

Competing priorities
and restricted
bandwidth

2

**Time-consuming
preparation**

From logistics
to content
development

3

**Difficult
moderation**

Ensuring balanced
and productive
discussions

4

**Unstructured
outputs**

Key insights can be
hard to capture
and synthesize

5

**Delayed
reporting**

Results available
too late to inform
decisions
